# Proofpoint Essentials Release Notes 10 Feb 2020

---

## Overview

We are proud to announce the latest release of Essentials. This release will be rolled out for general availability to all customers by February 13th, 2020. No actions are required to receive this update.

This update:

### Improvements

---

- Improves performance of bulk mail updates in email logs.
- Improves clarity of Archive sorting labels by updating: **Date Received** to **Archived Date** and **Date Sent** to **Received Date**.

### Bug Fixes

---

- Fixes a bug where users could not preview multi-part/signed type email content from the logs page
- Fixes a bug where reports sorted by total were not sorting correctly.
