Proofpoint Essentials Release Notes 24 Feb 2020

Overview

We are proud to announce the latest release of Essentials. This release will be rolled out for general availability to all customers by February 26th, 2020. No actions are required to receive this update.

This update:

Bug Fixes

- Resolves an issue that could cause some customers to not auto renew after their expiration date.
- Fixes a bug where release and release & approve links where missing from Digests.
- Fixes an issue that caused monthly scheduled reports to be sent weekly.
