## Proofpoint Essentials Release Notes 14 July 2020

## Overview

We are proud to announce the latest release of Essentials. This release will be rolled out for general availability to all customers by July 16th, 2020. No actions are required to receive this update.

This update:

## **Bug Fixes**

- · Corrects an issue with domain verification, customers now have the ability to verify management domains.
- Fixes an issue whereby messages would not display in Archive due to attachment filenames containing non utf8 characters
- · Addresses some minor UI bugs.
