
Proofpoint Essentials Release Notes 15 June 2020

Overview

We are proud to announce the latest release of Essentials. This release will be rolled out for general availability to all customers by June 15th, 2020. No actions are required to receive this update.

This update:

Bug Fixes

- Corrects an issue where inbound subject filter would not processed after sender release in some cases.
- Fixes an issue whereby EULA was incorrectly displayed.
- Fixes an unique domain issue for channel management customer.
- Addresses some minor UI bugs.
