
Proofpoint Essentials Release Notes 08 June 2020

Overview

We are proud to announce the latest release of Essentials. This release will be rolled out for general availability to all customers by June 10th, 2020. No actions are required to receive this update.

This update:

Bug Fixes

- Corrects an issue in the Azure Sync tool whereby the count had been incorrect.
- Fixes an issue whereby notification templates were not displaying properly in the UI when previewing or editing.
- Fixes IMAP connection tests in Archive.
- Addresses some minor UI bugs.
